

**A note for vaccine providers, from the Vaccine Ambassadors and our friends:**

By acknowledging and respecting people’s identity and diversity, we’re all helping increase access to COVID19 vaccines, and helping get the population vaccinated.

**Use this letter in conjunction with the *Addressing gender and misgendering to reduce vaccine hesitancy fact sheet*, and together we’ll be addressing and solving one of the barriers that drives vaccine hesitancy for the LGBTIQ+ community, and reducing anxiety in attending vaccination sites.**
